

SECURING YOUR WORLD
CLOSE PROTECTION

Royal Security Solutions Close Protection Services

Royal Security Solutions Company Limited (RSS) was established in October 2008 and is a leading professional security management company that prides itself on providing our clients with a quality service that they can rely on at an affordable rate.

We can provide you or your clients with Close Protection Security whether you are in Phuket for business or pleasure.

Finding the right security detail will allow you to safely conduct your business in all manner of environments, and is quickly becoming an essential part of day to day security for a number of businesses and VIPs visiting or staying in Phuket.

How can Royal Security Solutions help?

What is Close Protection Security?

A close protection officer, also known as a 'bodyguard', is a highly trained individual that is responsible for protecting VIPs or professionals from threat or danger during their stay in Phuket.

More effective as part of an ongoing assignment or long-term contract, close protection provides continuing care that can be customised to meet the needs of the individuals in question.

This often involves working long hours and is highly demanding, requiring a professional close protection team with law enforcement or armed forces training to remain calm under pressure.

All of our close protection officers are level headed, detail oriented and able to physically handle any and all issues that may arise as part of their daily responsibilities.

Securing a close protection detail can allow VIPs and business professionals go about their business safely and securely whilst they are in Phuket. In addition to our role as part of a larger support team and the unique tasks that we may be required to undertake, the key responsibilities of our officers include:

Physical Security: Our bodyguards are on hand to provide front line protection for individuals who would be under threat of physical violence, kidnapping, aggression, or assault. Acting quickly, our bodyguard can help provide protection for families and homes against theft and harassment all the way to assassination attempts.

Pre-emptive Care: Our close protection officers are highly trained professionals that will defuse or aim to leave situations before they become serious. The best way to avoid injury or threat is to avoid confrontations entirely or provide specialist care to tackle specific threats that the VIP or professional may find themselves under.

Ongoing Care: In addition to close protection duties, our protection security officers will undertake any number of additional security tasks essential to keeping the VIP secure. This can include bug detection, checking for bombs and , or route planning around Phuket and liaising with the support team to respond to changing goals or tasks.
